J TRUST ROYAL BANK'S BACKGROUND

J TRUST ROYAL BANK

Commencing our operations in August 2019 under our new name, J Trust Royal Bank, we are formerly known as ANZ Royal Bank – one of the country's largest foreign bank, deeply rooted in the Kingdom and has been serving Cambodians for more than 18 years.

J Trust Royal is a joint venture between J Trust Co., Ltd, a Japanese diversified financial holding company listed on the Tokyo Stock Exchange, and the Royal Group of Companies, one of the Cambodia's largest conglomerates.

J Trust Royal is one of the Cambodia's largest foreign banks with an ever-growing commitment to provide world-class financial services to Cambodian people and expatriates living in and working across the Kingdom.

ABOUT J TRUST

Headquartered in Tokyo, listed in Tokyo Stock Exchange, J Trust is the financial services group operating banking and financial businesses in Asia such as Japan, South Korea, Indonesia, Cambodia and Mongolia.

J Trust has expanded rapidly in financial services through acquisitions of Japan domestic finance and credit card companies. In 2012 it launched a South Korean Savings bank business, leveraging the expertise it had developed in Japan. In 2014, it acquired a finance company and a commercial bank in Indonesia. In August 2019, it bought a commercial bank in Cambodia.

ABOUT ROYAL GROUP

The Royal Group is the premier investment and development company in Cambodia and holds a **45%** share in J Trust Royal. The company is focused on bringing quality investment to Cambodia and providing investors with the platform to run successful and profitable operations. The Royal Group has been at the heart of Cambodia's economic development for more than two decades, attracting international investors and building market leaders in a cross-section of industries.

The company is recognized as the country's most dynamic and diversified business conglomerate. Established as a strategic investment holding company, it maintains interests in a wide range of industries including telecommunication, media, banking, insurance, resorts, education, property, trading and agriculture.

OUR VALUES

Our purpose is to help customers prosper. We live our purpose everyday through our values and behaviors, which are reflected on how we serve our customers, how we treat each other, and the results we achieve together as an organization.

AWARDS & RECOGNITION

J Trust Royal Bank has been consistently and responsibly complying with the tax obligations in accordance with the tax regulation of the Kingdom of Cambodia. This effort has been recognized through the **"GOLD" Certificate of Tax Compliance** that the Bank obtained from the General Department of Taxation from 2017 until 2023 consecutively. This demonstrates the Bank's good corporate tax governance.

J Trust Royal Bank is honored to receive a Letter of Recognition from **Samdech Akka Moha Sena Padei Techo Hun Sen**, the former Prime Minister of Cambodia, for our commitment to fulfilling the tax obligation and having been recognized as one of the taxpayers who paid the most tax and as well as having received a Gold Certificate of Tax Compliance from the General Department of Taxation in 2022. This recognition has demonstrated the Bank's commitment and fulfillment of the tax payment obligation in contribution to the growth of Cambodia's economy.

J Trust Royal Bank is proud to attain an esteemed **Payment Card Industry Data Security Standard (PCI DSS) certification**. This recognition demonstrates the Bank's commitment to upholding the highest level of card data security and privacy for the benefit of customers. In everything we do, we seek to put our customers first.

Customer experiences, convenience and flexibility in payment solutions have always been our priority. At J Trust Royal Bank, we strive to enhance our products, services and offers by providing customers with the best possible options for cashless payments. We encourage and promote the growth of digital payments in Cambodia through the use of debit and credit cards. Driven by our unwavering commitment and your continuous support and trust, we are honored to be recognized and awarded by VISA Cambodia with prestigious awards:

- Champion in Impactful Usage Campaign 2023
- Leadership in Consumer Debit Payment Volume 2023
- Leadership in Credit Activation Rate 2023

We are pleased to extend this recognition to all of our customers.

CHAIRMAN'S MESSAGE

NEAK OKNHA
KITH MENG
Chairman

On behalf of the board of directors, I would like to extend my appreciation to the management and the entire J Trust Royal Bank staff #JTRBTeam for their tireless efforts, dedication, and hard work in making impressive progress as we continue to uphold our brand promise and deliver values to our customers, shareholders, and stakeholders at large. The pressure they undertook to accomplish the financial result and the dedication to build a stronger foundation for long-term growth during this challenging period are indeed commendable. I would also express my heartfelt thanks to our loyal customers, business partners, government authorities, especially the National Bank of Cambodia for their unwavering trust, support, and guidance rendered to us in growing our business and serving Cambodians the financial solutions that is "Simply Better Service".

In 2023, global economic activity continued to experience slowdown, with the prolonged Russia-Ukraine war that has affected oil prices, supply chain and international trade, the Israel-Hamas war, the continued attacks in the Red Sea, monetary policy tightening with hikes in benchmark interest rates, capital outflows from emerging countries, and the deepening real estate sectors in China with weak investments and consumptions. According to the World Economic Outlook report by the International Monetary Fund (IMF) as of October 2023, the global GDP growth continued to slow down from 3.5% in 2022 to 3% in 2023.

Navigating through the global headwinds, the National Bank of Cambodia (NBC) reported in the Annual Report 2023 and Action Plan 2024 that Cambodia's economy slightly grew by 5.5% in 2023 compared to 5.2% in 2022

As we enter the 19th year of building trust and providing "Simply Better Service" in Cambodia, J Trust Royal Bank is committed to grow sustainably and deliver our brand promise, through thick and thin, to our valuable customers, stakeholders, and community at large.

and inflation declined to 2.1% compared to 5.4% over the same period. The Kingdom's economy achieved this remarkable feat last year even as the ASEAN economic growth went down to 4.4% and the global economic growth to 3%, thanks to the recovering manufacturing and tourism sectors while construction, real estate and agriculture still suffered from slower growth.

The worldwide interest rate hikes and the slowdown of the real estate sector have indeed posed significant impacts on the banking industry. Compressing Net Interest Margin and rising Non-Performing Loans (NPLs) have impacted its profitability for 2023, yet under the continuous support from the Royal Government of Cambodia (RGC) and astute guidance of the National Bank of Cambodia (NBC), the banking system remained stable and resilient despite the collapsed of a few regional banks in other markets. Banking Assets continued to grow at 8.6% and Liquidity Coverage Ratio (LCR) at a healthy rate of 168% for banks and 333% for MDIs. The Capital Adequacy Ratio (CAR) for banks and MFIs was at 22.7% and 25.4% respectively, according to the report from NBC.

Likewise, J Trust Royal Bank also continued to grow at a prudent approach, with our Total Assets grew at 3.6% from USD1.35Billion in 2022 to USD1.4Billion in 2023. Our LCR Ratio was at 173% and Solvency Ratio was at 20.5%, well above the regulatory requirements of 100% and 15%, indicating our strong financial position despite the ongoing unfavorable economic situations. The bank maintained its Returns on Equity (ROE) at above 5% and recorded a positive Net Profit of USD13.1Million.

The bank's remarkable resilience and agility have enabled us to navigate through various challenges in implementing strategies that have resulted in its financial stability despite the disruptive business environment. We also continued to invest in our digital and technology platforms, expand our products and services, and enhance our people capabilities to deliver greater value to our customers and stakeholders. We remained highly focused on our purpose to "Help our Customers Prosper" by offering comprehensive financial solutions with "Simply Better Service" dedicated to enriching the lives of our customers, people, and the community. In 2023, a major milestone toward this commitment was the roll-out of the long-awaited Bakong and KHQR on our platforms, enabling our customers to perform payments and fund transfers in real-time with better convenience. The bank also introduced several new products and services that responded to the needs of our target customers both in Personal and Corporate Banking spaces. As part of our long-term commitments in Cambodia, we have relocated

our Head Office and Main Branch from Kramoun Sar to a temporary location in Royal Railway, allowing the construction of our high-rise corporate office building at the previous location which is set to be ready by 2027.

Uplifting Literacy for the Growth of Cambodia

Our bank exists with the purpose to "Help our Customers Prosper", and we know by heart that this purpose does not cover only the business aspect but also extends to the community – Cambodia at large. Since the transition to J Trust Royal Bank, we continued to uphold our Corporate Social Responsibility (CSR) agenda of "Uplifting Literacy for the Growth of Cambodia" through a variety of initiatives and projects focusing on Education and Community Developments. Throughout the year, J Trust Royal Bank's management and team have advocated in various causes that align with our CSR agenda including the donation of 70 reusable laptops to several organizations, mentoring girls through career goal and guidance program organized by Girl Guide Association of Cambodia (GGAC), sponsoring the 10th Cambodia Book Fair, as well as working with different Key Opinion Leaders (KOLs) to produce content related to financial literacy for further sharing on relevant social media platforms. We believe that financial literacy can improve the livelihood of our community in the long-term and it can be done through both formal learning and informal sharing; thus, we embedded the financial literacy content as much as possible in various forms of our communications to ensure that our audiences will be benefited with better understanding on financial instruments and management knowledge from time to time.

2024 Outlook

According to the IMF's forecast, Cambodia's GDP growth is expected to bounce back at ~6% with the improved outlook on the industrial output, tourism, and agriculture sector. However, key risks to this positive outlook include the slower growth in the US, Europe & China, high level of private debt, slower construction & real estate activities and other extreme weather events affecting agriculture productivity. Under the leadership of our experienced and diverse management team, our Board is certain that J Trust Royal Bank will continue to grow sustainably and deliver steady returns to shareholders while propelling to a new height. We will remain vigilant in the face of further challenges and proactively manage risks while staying competitive in the market.

CEO'S MESSAGE

The global economy remained fragile due to convergence of many unprecedented factors. These include the increased geopolitical tensions and ongoing wars, supply chain disruptions, continued tighten monetary policies worldwide and interest rate hike leading to collapsed of a few regional banks in other markets, and slower growth in real estate and construction sectors.

According to the report from National Bank of Cambodia (NBC), industry profits generated by banks and financial institutions in 2023 declined comparing to 2022 though still at an acceptable level. The banking system grew at a slower rate with loans increased only at 4.8% and deposits grew at 13.1% year on year. Non-performing Loans (NPLs) for banks and Micro Finance Institutions (MFIs) spiked to 5.4% and 6.7% from 3.1% and 2.5% in 2022, respectively.

Despite the uncertainties with intense competitions and interest margin compression, J Trust Royal Bank remained resilient and continued to make significant progress in building Trust and serving Cambodia as our long-term commitment.

Sustained Positive Returns amid Market Volatilities

The bank sustained a double-digit Net Profit of USD13.1Million for FY2023 and maintained the Returns on Equity at above 5% despite the unfavorable and challenging business environment. Our Total Assets grew at 3.61% year-on-year with our Gross Loans and Advances hitting the USD1Billion milestone in 2023. At the same time, our Deposits also increase marginally with healthy Liquidity Coverage Ratio at 173%, well-above the regulator requirements and 2022 ratio at 100% and 130%, respectively.

Simply Better Service and Prosper Together

We continued to make meaningful investments to live up our "Simply Better Service" motto through introduction of new products and services, enhancement of our digital offers and financial solutions, as well as renovation of our branch footprints to ensure a better and more consistent customer experience across our various touchpoints.

In 2023, we have successfully joined Bakong and KHQR to offer convenient payments and fund transfer service to our customers. We also introduced Khmer Language option on JTRB Mobile App so that our customers have the options to switch between English and Khmer as their preferred language. We have rolled-out variety of new products and services including Signature Account for Ultra-High-Net-Worth segment, Car Loan, Payroll Saving Plus, Foreign

Currency Account for individual customers, and extended Tax Payment service through our Corporate Banking digital platform – JTR Connect.

Throughout the year, we offered many attractive campaigns and promotions to ensure our customers are well rewarded using our products and services to fulfill their daily financial needs. Through these exciting offers, we have achieved favorable growth in cards activation and usage and was recognized among the Top 5 Banks in Cambodia during the VISA conference and Award night in February 2024. Indeed, J Trust Royal Bank was awarded with three prestigious awards from Visa including "Leadership in Credit Activation Rate", "Leadership in Consumer Debit Payment Volume", and "Leadership in Impactful Usage Campaign".

With our persistent efforts to rebuild and strengthen our trade capabilities to support the growing trade flows for our clients, we have been recognized and awarded by Asian Banking and Finance as "Cambodia Domestic Trade Finance Bank of the Year" for 2023.

These awards and achievements testified our ongoing commitments and progressive improvements to provide "Simply Better Service" that meet the needs of our customers, from simple daily personal banking needs to complex commercial financial solutions for Small & Medium Enterprises (SMEs), Local Corporates & Multinational Corporations (MNCs).

Guided by the purpose to "Help Our Customers Prosper", we continued to deliver comprehensive financial solutions that enable our customers to thrive and grow, simply better together.

Upholding Brand Promise to Our People

In 2023, we maintained our record high staff engagement rate of 89%, resulting from our ongoing efforts to uphold our brand promise to our people following the three elements of our core employee value proposition (EVP) - Enabling Culture and Working Environment, Promising Development and Growth, and Competitive Remuneration and Benefits.

Throughout the year, we continued to invest in various initiatives to build a highly engaged workplace, upskill our talents, as well as maintaining a holistic approach to caring for the overall well-being of our team. As such, we introduced LinkedIn learning where our employees can access to learn and explore new knowledges or enhance their existing skills wherever they are. Learnings were no longer confined to classroom or on-the-job training anymore; it was made more user-friendly and accessible so that our team can learn to upskill or reskill at their

MR
TORU MYOCHIN
CEO

conveniences. At J Trust Royal Bank, we celebrate our team's learning and growing as we believe only through uplifting our people, we can thrive and together deliver our long-term promise and commitment to our customers.

Forward Looking to 2024

As we are celebrating our 5th year anniversary as J Trust Royal Bank and 19 Years of Building Trust in Cambodia, our team will continue to unleash more comprehensive financial solutions and deliver superior customer experience, living up the "Simply Better Service" spirit and committing to our purpose to "Help Our Customers Prosper".

Our key priorities for the year will be on continuous upgrades of our digital offers both on our Retail Mobile Banking Platform (JTRB Mobile App) and Corporate Banking Platform (JTR Connect), to introduce more payment and fund transfer features that will make banking experience with J Trust Royal Bank more convenient with enhanced security.

Note of Appreciation

As we close the 2023 chapter, I wish to express my profound gratitude to our customers, partners, and stakeholders for their unwavering trust and supports to our bank, enabling us to pursue our purpose in serving and prospering together. I am also grateful to our Board of Directors, Shareholders, and National Bank of Cambodia (NBC) for all the steer, guidance and supports given to us to navigate through the year that is filled with challenges and uncertainties.

Finally, to all the J Trust Royal Bank employees, thank you for your commitments and contributions to deliver FY2023 financial results and achievements while continue to carry the torch of J Trust Royal Brand higher from year to year.

FINANCIAL PERFORMANCE HIGHLIGHT

2023 Key Performance Metrics

* Growth rate of 2023 vs 2022

** Productivity = Net Profit / Number of Employees

*** Cost to Income Ratio = Total Operating Expenses / Total Revenues

Liquidity Coverage Ratio (LCR)

LCR = 173%

Regulatory Requirement = 100%, Internal Bank Threshold = 120%

"In the face of tightened liquidity and continued spiking interest rates globally, our bank managed to maintain a healthy Liquidity Coverage Ratio at 173%, well above the regulatory requirements and the 2022 ratio at 100% and 130%, respectively."

2023 Highlights

- Volatile business environments
- Increased geopolitical tensions from the ongoing Russia-Ukraine & Israel-Hamas wars
- Continued tighten global financial conditions
- Slower loan growth and rising NPL in Cambodia Banking

- + Successful rollout of Bakong & KHQR, enhancing solutions to be at par with competitors
- + Healthy liquidity
- + Disciplined approach to expenses
- + Ongoing prudent management of Asset Quality

Total Assets (\$M)

Total Equity (\$M)

Net Profit (\$M)

Gross Loans (\$M)

Customer Deposits (\$M)

Number of Employees (Persons)

Financial Performance (\$M)

	2023	2022	Movement %
Net interest income	45.6	50.5	-9.6%
Other operating income	6.4	8.0	-20.1%
Operating income	52.0	58.4	-11.0%
Operating expenses	(34.8)	(33.8)	2.9%

Impairment losses on financial instruments	(1.6)	(6.9)	-77.0%
Profit before income tax	15.6	17.7	-11.8%
Income tax expense	(2.5)	(3.5)	-27.6%
Net profit for the year	13.1	14.2	-7.9%

↓ \$4.8 million (-9.6%)

Net Interest Income decreased by \$4.8 million (-9.6%) driven by interest margin compression, impacted by tighter competition for funding across the market and interest rate spiked.

↓ \$1.6 million (-20.1%)

Other Operating Income declined by \$1.6 million (-20.1%), mainly from the income gap of foreign exchange, payment fees, and trade finance.

↑ \$1.0 million (+2.9%)

Operating Expenses increased by \$1.0 million year-on-year (+2.9%). Throughout the year, the Bank continued to invest in digital solution and enhance products and service to deliver a better experience to customers.

↑ \$13.1 million

Net Profit After Tax maintained double-digit Net Profit of \$13.1 million despite ongoing adverse global events and the record-high spiking interest rates impacting on the financial industry.

OUR PEOPLE

Key Highlights for 2023

Learning & Growth

Continuous learning and development are essential for personal and organizational growth. Our robust development programs provide opportunities for skill enhancement, career progression, and lifelong learning.

- We offer learning and development opportunities to employees through various modes and platforms.
- In 2023, a total of 5K hours of classroom training has been conducted for our employees, meaning an average of 7 hours of classroom training per employee. Meanwhile, our employees completed 15K online courses through our internal Learning Management System and online library, an average of 24 online courses per employee with a total of 20K of online learning hours bank wide.

- In October 2023, we partnered with a well-known online learning platform, LinkedIn Learning, allowing our people to have access to thousands of high-quality expert-taught contents with convenience. Our people can learn anytime, anywhere and on any device.
- This year 2 employees received our sponsorship to pursue their master's degree program, 19 attended external training and certification programs and 94 completed the Responsible Lending Certification with IBF (Institute of Banking and Finance).
- 2 sales programs have been delivered by an international training provider for our sales senior leadership team and managers to equip them with the sales strategic planning and professional sales skill, with a total investment of more than USD 20K.

At J Trust Royal Bank, our commitment for people remains unwavering. We place our people at core of everything we do for they are the greatest asset in delivering our bank vision which is to help customer prosper. Our people agenda is designed to foster a positive and enabling working environment, thrive for growth, and align with our core values.

- Leadership remains our core focus. We continued to roll out Leadership and Coaching programs for our leaders to help strengthen their leadership capability and to support them on their leadership journey.

Employee Engagement and Wellbeing

We strive to create a workplace where everyone feels respected, valued, and empowered. We've implemented initiatives that fostered a sense of belonging and invested in our employees' well-being.

- In addition to offering Flexible Medical and Insurance plans, and Employee Assistance Program to our staff, this year we further enhanced the medical and insurance plan by increasing the annual outpatient limit and adding more benefits to the insurance package for our staff.
- We hosted 3 health-sharing sessions in partnership with our medical provider for our employees covering the topics physiotherapy, hypertension and cancer.
- Different dialogue sessions were conducted including Management Townhall, Senior Leadership Team Offsite, EXCO Roadshow, HR team Roadshow, and Business Roadshow, with the aim to better communicate, provide clearer updates on business direction and performance, raise awareness on targeted topics and staff benefits, while fostering relationships among employees across the bank.

- With everything combined, our employee engagement score remains high at 89% for 3 year consecutively, a true reflection to our commitment to providing the best workplace for our people.

Diversity and Inclusion

Our organization and our people live and breathe our core values, ICARE (Integrity, Collaboration, Accountability, Respect, Engagement), simply fostering and nurturing equal opportunity and respect for differences in gender, race, age, professional background, sexual orientation, and more, in our day-to-day work.

- Women employees represents 56% of the total employees of 627, while women in leadership roles accounts for 46% within the organization.
- Our employees mix is 97.8% Cambodian local and 2.2% expats which includes Japanese, Australian, Indian, and Indonesian.
- Out of the total employees, 11% aged less than 25, 54% aged 25 to 34, 30% aged 35 to 44, and 5% older than 45.
- In 2023, 135 employees have experienced internal movement of new roles, reflecting our commitment to providing career growth and internal mobility for our internal talent.

As we move forward, we will continue to prioritize our people, ensuring that their voices are heard, their growth is nurtured, and their well-being is safeguarded.

CORPORATE BANKING

Our Corporate Banking is focused on the delivery of world-class banking solutions to business throughout Cambodia.

J Trust Royal Bank offers comprehensive product solutions, including Trade Finance, Foreign Exchange, Loan Products and Cash Management. We support a wide range of SME and local corporates across manufacturing, agriculture and wholesale trade, as well as multinational companies who bring their international expertise to the Cambodian market. By helping these businesses succeed, we are promoting trade and capital flows within the region and across the globe, and supporting a dynamic, sustainable, and growing economy.

J Trust Royal Bank believes in fostering lasting partnerships with our customers. This approach requires an in-depth knowledge of the companies we serve and the industries in which they operate, so we are able to structure an appropriate solution for their business. Our best-in-class sector and industry-specific knowledge helps our customers understand global and local trends in supply and demand, shaping their strategy for future success.

Our SME and Corporate customers have dedicated relationship managers, and are supported by a team of product specialists with unrivaled expertise. All of our bankers believe in going above and beyond to satisfy client expectations, with this service ethic being embedded in the DNA of Japanese culture.

PERSONAL BANKING

In 2023, J Trust Royal Bank embarked on an exciting journey by introducing new products and channels to meet the demands of both existing and new clients. Among these initiatives was the launch of Bakong (KHQR) in response to client requests. Additionally, J Trust Royal Bank expanded its product offerings, including the Signature Account, Payroll Savings Plus Account, Khmer Language for Mobile App, and Tax Payment services extended to 10 branches. On the lending side, a car loan product was introduced to capture a new segment of customers. Furthermore, more branches have been renovated, namely Siemreap and Preah Sihanouk Provincial Branches, to reflect our growth agenda and build our market's presence from both existing and potential clients.

Customer First

At J Trust Royal Bank, our unwavering focus has been on Customer Centricity, and we remain committed to this journey. We recognize that meeting our clients' needs is the very reason we exist. Customer centricity isn't just a strategic initiative; it's woven into our daily operations and has become part of our organizational DNA.

Operating in a highly competitive environment where numerous banks vie for clients, J Trust Royal Bank has carefully considered how to differentiate itself. Our goal was to embed a "Customer First" mindset across the entire bank. We aimed to ensure consistent, high-quality service for clients across all touchpoints—whether through branch visits, the Contact Center, or other channels. Friendly and professional interactions, efficient service, and a solution-oriented approach became our hallmarks.

While expanding our branch network to enhance visibility and convenience for clients, we've also recognized the significance of digital platforms—the future of the banking industry. J Trust Royal Bank continues to enhance its digital footprint and ecosystem to better serve our customers. Notably, in 2023, we observed a significant shift in foot traffic from branches to other channels, such as the Mobile App, Customer Care Center, and ATMs. These changes have not only increased convenience for clients themselves but also reduced branch operating costs.

Business Growth

In the fiscal year 2023, both the industry and J Trust Royal Bank faced significant challenges. Market liquidity fluctuations led to an overall increase in the cost of funds, partly influenced by changes in the Federal Reserve's policies in the United States. Despite these hurdles, J Trust Royal Bank managed to sustain growth, particularly in number of clients and deposits growth. This resilience reflects the confidence our customers have in our bank.

At J Trust Royal Bank, a "Customer First" approach has always been central to our operations. We continually enhance customer experiences to earn their advocacy. Customer advocacy remains a key agenda for us, as we strive to capture a larger share of the market.

Most Trusted Personal Bank in Cambodia

Our ongoing journey aims to establish J Trust Royal Bank as the most reliable personal bank in Cambodia. To achieve this, we must continue investing in learning and development. By maintaining our leadership in Customer Centricity, we can enhance our position within the industry. Additionally, we'll persist in improving our products and services to meet market demands. Customer advocacy remains a central focus, as we strive to earn referrals from our satisfied clients.

J TRUST ROYAL BANK IN THE COMMUNITY

At J Trust Royal Bank, we recognize that we have a responsibility to actively support the communities in which we operate. We achieve this through our core activities as a bank, helping customers to realize their ambitions. However, we also believe in contributing beyond banking services by actively participate in other activities for the betterment of our community, and our country.

This has been true since the Bank was founded in 2005, and our dedicated staff have volunteered thousands of volunteer hours, and raised significant funds, aim to enhance education and employment opportunities for marginalized and disadvantaged individuals.

J Trust Royal Bank commits to continue the corporate social responsibility legacy of “Uplifting

Literacy for the Growth of Cambodia”, which has always been our mission as it is close to the hearts of our people and our customers. Different area of literacy uplifting includes Professional Literacy, Financial Literacy, and Reading Literacy. Moreover, we also support our community in which we are operating in different forms related to community development, livelihood improvement as well as disaster relief.

Corporate Social Responsibility Mission: UPLIFTING LITERACY FOR THE GROWTH OF CAMBODIA

EDUCATION

Professtional Literacy

Financial Literacy

Reading Literacy

OTHER

Other forms of contribution/donation/sponsorship which related to community development

FINANCIAL LITERACY THROUGH SOCIAL MEDIAS

In 2023,

we formed a partnership with social media influencer and key opinion leader to launch two series of financial literacy videos (20 video in total), the “Financial Literacy for Kids Series” and the “Financial Literacy for Youth Series”. Our ultimate objective in producing these educational video series is to increase awareness of financial literacy among kids and youths. By equipping them with fundamental financial literacy knowledge, we empower them to make informed decision about money management, budgeting, saving and spending. This preparation will help them to be well-prepared for the upcoming financial challenge they may encounter in the future. The financial literacy video series for kids range from basic terminology of banking, Needs & Wants, Savings & Spending, whereby various topic for youth group include budgeting & financial planning, savings tips, good spending and saving habits, etc.

HIGHLIGHT OF 2023 COMMUNITY ACTIVITIES

Memorandum of Understanding (MoU) with the Girl Guides Association of Cambodia

07 April 2023 - J Trust Royal Bank signed a Memorandum of Understanding (MoU) with the Girl Guides Association of Cambodia to Raise Awareness of Financial Literacy and Career Guidance. Through this collaboration, J Trust Royal Bank supported GGAC in term of human resources & capacity for Financial Literacy Sharing sessions and technical support on Career Guidance to the targeted group.

The MoU Signing Ceremony was hosted at J Trust Royal Head Office between Mrs. Chhov Phally, Deputy Chief Commissioner of the Girl Guides Association of Cambodia and Mr. Makoto Kurokawa, Deputy CEO of J Trust Royal Bank.

Be A Hero: Show Your Care, Share Your Love, Donate Your Blood

02 June 2023 - J Trust Royal Bank organized a 2-days blood donation campaign. Total of 73 blood donors including one representative from Kantha Bopha Foundation expressed their kind support to the children in need by donating their blood to Kantha Bopha Hospital on the “Be A Hero Campaign” organized by J Trust Royal Bank. The 2-days campaign was on 1 and 2 June in conjunction with International Children’s Day and World Blood Donation Day and this donation was organized at 3 different locations at Kantha Bopha Hospital in Phnom Penh, Siem Reap and Battambang Blood Transfusion Center.

A Donation of 70 Reusable Laptops to Three Organizations

04 August 2023 - J Trust Royal Bank donated 70 reusable laptops to three organizations to fulfill different good causes as well as made align with J Trust Royal Bank’s Corporate Social Responsibility of “Uplifting Literacy for the Growth of Cambodia”. The laptops have been donated to respected organizations, 20 laptops to This Life of Cambodia and to help boost computer literacy for the beneficiaries of in schools program name “This Life in Schools”. Another 20 laptops were donated to CEDO Organization bases in Siem Reap province, to support a group

of underprivileged students in their university assignment. And 30 laptops were donated to Tech for Kids Academy under the Computer of Change project to support ‘Old to You, New to Me’ Campaign Round 2, aims to support underprivileged students in 10 target cities/provinces in Cambodia to improve their learning through technology and access online learning remotely.

These reusable laptops respond to the evolving approach to education as technology will equip beneficiaries with digital skills for their development personally and professionally.

Cycling for Environment and Children’s Health Year 9- Raising Fund for Angkor Hospital for Children

27 August 2023 - J Trust Royal Bank participated and sponsored in the “Cycling for the Environment and Children’s Health Year 9” which was organized by Angkor Hospital for Children (AHC) in Siem Reap province. This participation demonstrated the Bank’s social responsibility in supporting the hospital for the benefit of the community and Cambodian children.

J Trust Royal Bank Sponsored Media Awareness 2023

14 September 2023 - J Trust Royal Bank was honored to be a Silver Sponsor of Media Awareness Campaign 2023 through the training of “The Basics of Banking, Finance, and Insurance in Cambodia” to more than 40 media and institutions. This sponsorship demonstrates the Bank’s commitment to promoting essential knowledge in the banking and financial sector and to improving public awareness through media, especially effective financial management.

The three-month training successfully concluded under the organization of the Association of Banks in Cambodia (ABC), the Cambodia Microfinance Association of Cambodia (CMAC), the Insurance Association of Cambodia (IAC), and the Club of Cambodian Journalists (CCJ).

J Trust Royal Bank Matched the Blue Sea with Blue Shirts

29 October 2023 - Total of 56 J Trust Royal Bank employee participated in the 2023 Banker’s Cycling event, hosted by the Association of Banks in Cambodia (ABC). The event took place at Dragon’s Tail (Sokha Beach) in Sihanouk Ville with about 500 participants including representative from National Bank of Cambodia and Ministry of Environment. This demonstrated the Bank’s support to the Association of Banks in Cambodia (ABC), while the event aimed at promoting Sustainable Finance and Khmer Riel in the country for that sustainable finance is key to protecting a sustainable environment.

J Trust Royal Bank Promoted the Literacy by Participating in the 10th Cambodia Book Fair

14-17 December 2023 - J Trust Royal Bank promoted literacy via Gold sponsorship and participation in the 10th Cambodia Book Fair themed “Write with Passion, Read with Interest and Capture Knowledge”, which took place at Koh Pich City Hall. Our Read Play Learn Corner buzzed for all full 4-day with all ages who came to engage with all activities. Noticeably, Nutstacker, I-spy, and Financial Literacy Quiz via Kahoot were the ace among all activities. Visitors who came to the challenge also got to bring prizes back home including books. The 2023 Cambodia Book Fair attracted about 200,000 participants allowing us to showcase our brand, and highlight our products and services.

RISK MANAGEMENT

The success of J Trust Royal Bank's strategy is underpinned by the sound management of its risks. As J Trust Royal Bank progresses on its strategic path to becoming the customer's trusted financial partner in Cambodia, the risks faced by J Trust Royal Bank will evolve. The success of J Trust Royal Bank's strategy is dependent on its ability to manage the broad range of interrelated risks it is exposed to across our expanding business.

Risk Appetite Statement

J Trust Royal Bank's Risk Appetite Statement (RAS) is set out by the J Trust Royal Bank Board to define risk appetite for J Trust Royal Bank's strategic objectives and priorities. The RAS takes a holistic view of risks and seeks to understand the costs and benefits of particular risk choices.

Risk Management is integral to all aspects of the Bank's activities and is the responsibility of all staff. Managers have a particular responsibility to evaluate their risk environment, to put in place appropriate controls and to monitor the effectiveness of those controls. The risk management culture emphasizes careful analysis and management of risks in all business processes.

The RAS framework provides an enforceable risk statement on the amount of risk J Trust Royal Bank is willing to accept and it supports strategic and core business activities and customer relationships with the objective of ensuring that:

- J Trust Royal Bank only engages in permitted activities
- The scale of permitted activities, and subsequent risk profile, does not lead to potential losses or earnings volatility that exceeds J Trust Royal Bank approved risk appetite
- Risk is expressed quantitatively via limits and tolerances
- Management focus is required to discuss key and emerging risk issues and their mitigation actions; and
- Risk is linked to the business by informing, guiding, and empowering the business in executing strategy.

J Trust Royal Bank's risk management is viewed as a core competency and to ensure that risks are identified, assessed, and managed in an accurate and timely manner, J Trust Royal Bank has:

- An independent risk management function together with embedded risk managers within the businesses
- Developed frameworks to provide structured and disciplined processes for managing key risks. These frameworks include articulation of the appetite for these risks, portfolio direction, policies, structures, limits and discretions.

Key Material Risks

All J Trust Royal Bank activities involve, to varying degrees, the analysis, evaluation, acceptance and management of risks or combinations of risks. The material risks facing J Trust Royal Bank and its approach to the management of those risks are described as follows:

Strategic Risk

Strategic Risks are risks that affect or are created by the bank's business strategy and strategic objectives. J Trust Royal Bank aspires to be among Cambodia's leading banks, measured by customer outcomes, operational effectiveness, and returns to shareholders. This requires ongoing development and innovation in its operations through strategic initiatives which lead to an increase in Key Material Risks (e.g., Credit Risk, Market Risk, Operational Risk). J Trust Royal Bank has a low appetite for threats to the effective and efficient delivery of these initiatives. It recognizes that the actual or perceived inability to deliver strategic initiatives could have a significant impact on its ability to achieve its objectives as well as its reputation. However, risk management strategies associated with these risks form the primary controls.

- J Trust Royal Bank Board meeting is regularly to discuss the major initiatives and identify and assess potential strategic risks
- In assessment of strategic risks, a framework is in place to ensure that these initiatives are prioritized appropriately, and that the associated risks are well managed and reported on a consistent basis.
- The Board will consider impacts, such as pricing and products; the systems and processes we need to deliver on the proposed strategy; and capital implications.

Credit Risk

Credit risk is the risk of default associated with a financial transaction resulting from a counterparty failing to fulfil its debt payments. J Trust Royal Bank has a robust risk management framework to manage credit risk based on:

- J Trust Royal Bank's defined credit principles that direct our behavior when managing credit risk to ethically achieve the best outcomes for our customers and shareholders.
- Risk Management Manual that monitors our credit activities in line with agreed business strategy, RAS and the NBC regulations

Market Risk

Market Risk stems from J Trust Royal Bank's trading and balance sheet activities and is the risk to J Trust Royal Bank's earnings arising from changes in interest rates, foreign exchange rates, credit spreads and volatility in other markets.

- The Bank has a low risk appetite for Interest Rate Risk. J Trust Royal Bank's objective is to match its assets and liabilities within an acceptable tolerance.
- The Bank has a medium risk appetite for FX Risk. The Bank is willing to accept moderate open positions especially in local currency KHR, with limits determined by ALCO for each currency (relative to USD).
- The bank has a low risk appetite for liquidity risk. J Trust Royal Bank's objective is to ensure that an adequate liquidity position is maintained to satisfy bank's obligations at all times.

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. This definition includes legal risk and the risk of reputation loss, or damage arising from inadequate or failed internal processes, people and systems, but excludes strategic risk. The objective of operational risk management is to ensure that risks are identified, assessed, measured, evaluated, treated, monitored and reported in a structured environment with appropriate governance oversight. J Trust Royal Bank does not expect to eliminate all operational risks, but to ensure that the residual risk exposure is managed as low as reasonably practical – the benefit of the risk control measures exceeds the cost of these measures.

- **Information Technology:** J Trust Royal Bank has a low appetite for IT system-related incidents which are generated by poor change management practices.
- **Internal Fraud:** J Trust Royal Bank has no appetite for any fraud or corruption perpetrated by its staff. J Trust Royal Bank takes all allegations of suspected fraud or corruption very seriously and responds fully and fairly as set out in the Code of Conduct.

- **External Fraud:** J Trust Royal Bank has a very low appetite for External Fraud. This includes lending, card, internet, or any other forms of external-based fraud. The Bank implements current industry base technologies and controls to mitigate fraud attempts.
- **Information Management:** J Trust Royal Bank is committed to ensuring that its information is relevant, accurate, timely, and properly conserved and managed in accordance with legislative and business requirements. It has a very low appetite for the compromise of processes governing the use of information, its management and publication. J Trust Royal Bank has no appetite for the deliberate misuse of its information.

Compliance Risk

Compliance risk is the probability and impact of an event that results in a failure to act in accordance with laws, regulations, industry standards and codes, internal policies and procedures and principles of good governance as applicable to J Trust Royal Bank's businesses.

- **Regulatory Risk:** J Trust Royal Bank recognizes that failure to maintain no appetite position for Regulatory Risk may result in outcomes which may create systemic risk and catastrophic outcomes. The Bank is committed to a high level of compliance with relevant legislation, regulation, industry codes and standards as well as internal policies and sound corporate governance principles. Identified breaches of compliance will be remedied as soon as practicable. The Bank has no appetite for deliberate or purposeful violations of legislative or regulatory requirements.

People Risk

People Risk refers to the costs that may arise as a consequence of events associated with J Trust Royal Bank staff. J Trust Royal Bank's significant people and culture-related risks include:

- **Caliber of People** – J Trust Royal Bank relies on motivated, diverse and high-quality staff to perform its functions. It aims to create an environment where staff are empowered to the full extent of their abilities.
- **Conduct of People** – J Trust Royal Bank expects staff to conduct themselves with a high degree of integrity, to respectfully strive for excellence in the work they perform and the outcomes they achieve, and to promote the public interest. The appetite for behaviors which do not meet these standards is very low. J Trust Royal Bank takes any breach of its Code of Conduct very seriously.
- **Work Health & Safety (WHS)** – J Trust Royal Bank commits to create a safe working environment for all staff, where people are protected from physical or psychological harm. It has a very low appetite for practices or behaviors that could be expected to lead to staff being harmed while at work.

MEMBERS OF THE BOARD OF DIRECTORS

Neak Okhna Kith Meng is the Chairman and Chief Executive Officer of the Royal Group of Companies. Neak Okhna has been the driving force behind bringing international business and investors into Cambodia. Through alliances with leading global players, he has brought international quality service to the telecoms, media, education, finance, banking, insurance, logistics, power generation and hospitality industries. He is a passionate entrepreneur who is committed to the development of Cambodian economy through foreign direct investment.

Neak Okhna Kith Meng holds numerous significant roles in Cambodia, including President of the Cambodian Chamber of Commerce, the Phnom Penh Chamber of Commerce and holds the Cambodian seat at the ASEAN Business Advisory Council.

CHAIRMAN

NEAK OKNHA KITH MENG

DIRECTOR

MR. WILLIAM MARK HANNA

Mr. Mark Hanna is an experienced international senior finance and operations executive. Mr. Hanna joined the Royal Group in July 2007 and is responsible for the financial management and performance of the Group's diverse business interests. Prior to joining the Royal Group, Mr. Hanna held several CEO & CFO roles throughout Asia in the telecoms and manufacturing industries.

Mr. Hanna has a bachelor's degree in Accounting and is a member of the Chartered Institute of Management Accountants.

MS. YUKO MIYAZAKI
CHIEF RISK OFFICER

Yuko Miyazaki joined J Trust Royal Bank as Chief Risk Officer in September 2019 bringing in over 25 years of extensive international banking experiences from Japan and the United States, primarily in Credit and Risk Management roles and in Business Development. Currently, she is leading a team of Risk professionals specializing in Credit Risk including approving credit proposals and managing portfolio and Lending Services functions as well as Operational Risk. In her capacity as the Chairwoman of Risk Management Committee (RMC), she has a leading role in the supervision and oversight of the credit, market, and operational risks to ensure the alignment of business strategy with risk appetite statements. Yuko is also a member of the company's executive management team.

Yuko holds a Master of Science in Finance from George Washington University, a Bachelor of Arts in Economics from Michigan State University, USA. She has held a number of senior roles in Tokyo Star Bank, Moody's Analytics, Aozara Bank, Bear Stearns, and Freddie Mac.

**MS. BOREN KORK**

CHIEF LEGAL & COMPLIANCE OFFICER

Boren leads Legal and Compliance team to manage legal risks and to ensure compliance with regulatory requirements, anti-money laundering (AML), counter-terrorist finance (CTF), and economic/trade sanctions frameworks, and also acts as the Company Secretary, coordinating corporate affairs in interaction with the Board of Directors of the Bank.

Under Boren's leadership, JTRB Legal and Compliance team was selected and listed in the Legal 500 GC Powerlist: Southeast Asia Teams 2023, highlighting the best in-house legal and compliance departments working in various industries across the region; whilst Boren herself was also listed in the Legal 500's GC Powerlist 2019 as one of the most influential and innovative in-house lawyers in Southeast Asia.

Boren's career flourished in the bank. First joining in June 2012 as a Manager of Commercial and Institutional Client Administration, Boren took on the other key management roles before being appointed to lead the Legal and Compliance Department in November 2018. Before joining J Trust Royal Bank, Boren gained extensive experience in the fields of law and education.

Boren holds Doctor of Law and Master of Law degrees from Nagoya University (Japan), and Bachelor of Law degrees from the Royal University of Law and Economics (Cambodia), and Lumière Lyon II University (France).

**MS. PHEAKDEY POK**

CHIEF FINANCIAL OFFICER

Pheakdey is the Chief Financial Officer of J Trust Royal Bank with an extended role to support Business Strategy. She holds a significant role in Finance and Strategy to ensure business alignment, support business growth agenda, financial management and governance to ensure compliance with local regulatory and Group in accordance to both Cambodia and International Accounting Standards.

She has almost two-decades of experience in various industries including Banking, Auditing and Fast-Moving Consumer Goods (FMCG). Of which, she has accumulated more than 15 years in the banking industry. In addition to this, she is also a non-executive board of director of Phnom Penh Autonomous Port since June 2022.

She holds a bachelor's Degree in Accounting and Finance from the National University of Management and is an Associate Member of CPA Australia and Institute of Public Accountant Australia (IPA). She is also a Member of the Australian Institute of Company Directors (MAICD) and holds a trust license from Cambodia Trust Regulator since August 2023.

**MR. PHYRUN HENG**

HEAD OF TRANSACTION BANKING

Joining the Bank since 2012, Phyrun has cultivated wide-ranging experiences in credit & capital management, relationship management & transaction banking, looking after Corporation & Institutional Banking, and later expanding to emerging corporates.

He has provided advisory services/workshops to clients and community on financial literacy, trade, cash management products and driven bank digitization agenda for local corporates & multinational corporations.

After his appointment as Head of Transaction Banking "TB", Phyrun is leading and expanding bank's capabilities both in Trade & Supply Chain "TSC" and Payment & Cash Management "PCM". Phyrun holds two degrees, Bachelor of Economy Development and Bachelor of Education in English and won a scholarship for Associate Association of Chartered Certified Accountants "ACCA".

He completed 2 specializing courses in Hong Kong, "Advanced Working Capital Management" and "Certificate in International Cash Management" by Association of Corporate Treasurers (ACT), UK-chartered body for treasury management. He was also on a short assignment with TB Products Management and Wholesales Digital Team in Australia for knowledge transfer and digitization pioneer.

**MR. SOPHINA KHIEV**

HEAD OF MARKETS

Sophina joined the bank since 2005 when it commenced its operation under the name of ANZ Royal Bank and currently leads Markets & FI to support bank's FI relationship & treasury function as well as FX services providing to Retail, Business and Corporate Banking clients.

With his 15 years of career with the bank that started with few roles within Retail Banking as priority banking manager, Branch Manager, Senior Manager of Mortgage and then moved to Corporate Banking and Markets & FI, Sophina brings with him a wealth of knowledge and experience of banking and financial market. He joined our executive management team of J Trust Royal Bank on day 1 after the transition in Aug 2019.

Fluent in English, Mandarin Chinese and Khmer, Sophina studied economics and finance at Guangxi University in China under Chinese Government Scholarship Program.

MR. VIC SISOWATH
HEAD OF PERSONAL BANKING

Vic Sisowath joined ANZ Royal Bank in 2007 and stayed with the bank when it transitioned to J Trust Royal Bank in 2019. He currently leads Personal Banking covering 17 branches, our Premier banking segment, secured and unsecured lending businesses, Bancassurance, Analytic and Branch Assurance and our 24/7 Customer Care Centre.

With 15 years of Personal Banking experience including roles as Premier Banking Manager, Branch Manager, Regional Manager, Head of Affluent Banking, and a secondment in Singapore Personal Banking, Vic joined the executive management team in February 2017 as the Head of Personal Banking. After more than 15 years in the Cambodian retail space, Vic has intimate knowledge of sales and services, and an understanding of our customers' financial needs.

Fluent in French, English and Khmer, Vic studied economics at the University of California Berkeley and has been overseas for many years. Through the bank training programs, he has become an accredited facilitator for sales and sales management.

MR. SALY LOR
CHIEF OPERATING OFFICER

Saly joined the bank since May 2005 and has held several senior management roles including Senior Business Development, Branch Manager, Regional Manager, Head of Mortgages, Head of Retail Operations, Acting Chief Operating Officer and Chief Operating Officer.

In August 2019, he was appointed as Chief Operating Officer. As Chief Operating Officer, Saly oversees the Bank's operations, which encompasses a diverse range of functions inclusive of Retail Operations, Institutional & Commercial Operations, Projects & Transformation, Property, Administration and Procurement.

Prior to joining the bank, Saly held a management role in the hospitality field and was a lecturer of a private university.

Saly was an AusAID scholarship winner and holds a Master of Education and Training from Victoria University, Australia.

MS. NARITA HANG CHUON
HEAD OF CORPORATE BANKING

Narita Hang Chuon, Head of Corporate Banking, she responsible for the growth and profitability, as well as the good credit quality of the Corporate Banking Segment, which combine of Small and Medium Enterprise Portfolio, Local Corporate Portfolio, and Multinational Companies Portfolio.

REPORT OF THE BOARD OF DIRECTORS

The Board of Directors ("the Board" or "the Directors") hereby submit their report together with the audited financial statements of J Trust Royal Bank Plc. ("the Bank") for the year ended 31 December 2023.

Principal Activities

The Bank is principally engaged in all aspects of banking business and the provision of related financial services.

There were no significant changes to these principal activities during the financial year.

Financial Results

The financial results of the Bank for the year were as follows:

	2023	2022	2023	2022
	US\$	US\$	KHR'000 (Note 6)	KHR'000 (Note 6)
Profit before income tax	15,584,122	17,671,478	64,050,743	72,223,330
Income tax expense	(2,519,791)	(3,482,503)	(10,356,341)	(14,232,990)
Net profit for the year	13,064,331	14,188,975	53,694,402	57,990,340

Dividends

No dividend was declared or paid and the Directors do not recommend any dividend to be paid for the year under audit.

Share Capital

There was no change in the registered and issued share capital during the year under audit.

Reserves and Provisions

There were no other movements to or from reserves and provisions during the financial year other than those disclosed in the financial statements.

Losses on Loans and Advances

Before the financial statements of the Bank were prepared, the Directors took reasonable steps to ascertain that actions had been taken in relation to the writing off of any bad loans and advances and the making of allowance for doubtful loans and advances, and satisfied themselves that all known bad loans and advances had been written off and adequate allowance for losses had been made on loans and advances.

At the date of this report, the Directors are not aware of any circumstances, which would render the amount written off for bad loans and advances, or the amount of allowance for losses on loans and advances in the financial statements of the Bank, inadequate to any material extent.

REPORT OF THE BOARD OF DIRECTORS

(CONTINUED)

REPORT OF THE BOARD OF DIRECTORS

(CONTINUED)

Assets

Before the financial statements of the Bank were prepared, the Directors took reasonable steps to ensure that any assets which were unlikely to be realised in the ordinary course of business at their value as shown in the accounting records of the Bank had been written down to an amount which they are expected to be realised.

At the date of this report, the management is not aware of any circumstances, which would render the values attributed to the assets in the financial statements of the Bank misleading.

Valuation Methods

At the date of this report, the Directors are not aware of any circumstances, which have arisen, which render adherence to the existing method of valuation of assets and liabilities in the financial statements of the Bank misleading or inappropriate.

Contingent and Other Liabilities

At the date of this report, there does not exist:

- (a) any charge on the assets of the Bank which has arisen since the end of the financial year which secures the liabilities of any other person, or
- (b) any contingent liability in respect of the Bank that has arisen since the end of the financial year other than in the ordinary course of banking business.

No contingent or other liability of the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Bank to meet its obligations as and when they fall due.

Change of Circumstances

At the date of this report, the Directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Bank, which would render any amount stated in the financial statements misleading.

Items of Material and Unusual Nature

The results of the operations of the Bank for the financial year were not, in the opinion of the Directors, substantially affected by any item, transaction or event of a material and unusual nature.

Events since the Reporting Date

At the date of this report, there have been no significant events occurring after the reporting date which would require adjustments or disclosures to be made in the financial statements.

The Board of Directors

The Directors who served during the year and at the date of this report are:

Neak Oknha Kith Meng	Chairman
Mr. William Mark Hanna	Director
Mr. Toru Myochin	Director
Mr. Makoto Kurokawa	Director
Mr. Ryuichi Atsuta	Director
Mr. Simon John Perkins	Director
Mr. Toru Hatomoto	Director
Ms. Seka Hep	Independent Director
Mr. Paul Carey Clements	Independent Director

Directors' Interests

None of the Directors held or dealt directly in the shares of the Bank during the financial year.

Directors' Benefits

During and at the end of the financial year, no arrangements existed to which the Bank is a party with the object of enabling Directors of the Bank to acquire benefits by means of the acquisition of shares in or debentures of the Bank or any other corporate body.

During the financial year, no Director of the Bank has received or become entitled to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by the Directors as disclosed in the financial statements) by reason of a contract made by the Bank or a related corporation with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest other than as disclosed in the financial statements.

REPORT OF THE BOARD OF DIRECTORS

(CONTINUED)

Directors' Responsibility in Respect of the Financial Statements

The Board of Directors is responsible for ascertaining that the financial statements present fairly, in all material respects, the financial position of the Bank as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with the financial reporting framework indicated therein. In preparing these financial statements, the Board of Directors is required to:

- (i) adopt appropriate accounting policies which are supported by reasonable and prudent judgments and estimates and then apply them consistently;
- (ii) comply with Cambodian International Financial Reporting Standards ("CIFRSs") or, if there have been any departures in the interest of true and fair presentation, ensure that these have been appropriately disclosed, explained and quantified in the financial statements;
- (iii) oversee the Bank's financial reporting process and maintain adequate accounting records and an effective system of internal controls;
- (iv) assess the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so; and
- (v) control and direct effectively the Bank in all material decisions affecting the operations and performance and ascertain that such have been properly reflected in the financial statements.

The Board of Directors confirms that they have complied with the above requirements in preparing the financial statements.

Approval of the Financial Statements

We hereby approve the accompanying financial statements together with the notes thereto as set out on pages 56 to 132 which, in our opinion, present fairly, in all material respects, the financial position of the Bank as at 31 December 2023, and its financial performance and its cash flows for the year then ended, in accordance with CIFRSs.

Signed in accordance with a resolution of the Board of Directors,

William Mark Hanna
Director

Phnom Penh, Kingdom of Cambodia

Opinion

We have audited the financial statements of J Trust Royal Bank Plc. ("the Bank"), which comprise the statement of financial position as at 31 December 2023, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at 31 December 2023, and its financial performance and cash flows for the year then ended, in accordance with Cambodian International Financial Reporting Standards ("CIFRSs") and the guidelines of the National Bank of Cambodia.

Basis for Opinion

We conducted our audit in accordance with Cambodian International Standards on Auditing ("CISAs"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), together with the ethical requirements that are relevant to our audit of the financial statements in the Kingdom of Cambodia, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Board of Directors is responsible for the other information. The other information comprises the Report of the Board of Directors, but does not include the financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the annual report, which is expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the Board of Directors and respond to that matter in accordance with the requirements of CISA 720 (revised).

REPORT OF THE INDEPENDENT AUDITORS**(CONTINUED)****Responsibilities of the Management and the Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with CIFRSs, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with CISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

REPORT OF THE INDEPENDENT AUDITORS**(CONTINUED)**

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Cash and cash equivalents at end of the year	7	260,373,939	235,740,240	1,063,627,541	970,542,568

The accompanying notes form an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS**AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023****1. REPORTING ENTITY**

J Trust Royal Bank Plc. ("the Bank") is domiciled in the Kingdom of Cambodia. The Bank was originally a joint venture between Australia and New Zealand Banking Group Limited ("ANZ"), a public company incorporated in Australia, through its wholly owned subsidiary ANZ Funds Pty Ltd., with a 55% interest in the joint venture, and Royal Group Finance Co., Ltd., which has been ultimately and solely owned by a private individual in Cambodia who is also the Director of the Bank with a 45% interest in the joint venture.

In August 2019, the sale and purchase of the Bank's shares transaction including the control transfer between ANZ Funds Pty Ltd and J Trust Co., Ltd. ("JT") was completed and JT became the parent company of the Bank from 19 August 2019. The Bank also changed its official name from ANZ Royal Bank (Cambodia) Ltd. to JTrust Royal Bank Ltd. from 19 August 2019. In December 2019, the Bank amended its Memorandum and Articles of Association again and reflected the change in its name from "JTrust Royal Bank Ltd." to "J Trust Royal Bank Plc.", with approval by the National Bank of Cambodia on 10 March 2020 and endorsement by the Ministry of Commerce on 29 April 2020.

The principal activity of the Bank is the provision of comprehensive banking and related financial services in the Kingdom of Cambodia.

The registered office of the Bank is Royal Railway Building No. 10, Russian Blvd, Sangkat Srah Chak, Khan Doun Penh, Phnom Penh, Kingdom of Cambodia.

The Bank operates its business in the central city of Phnom Penh and 4 provinces with a network of 17 branches.

As at 31 December 2023, the Bank has 627 employees (2022: 634 employees).

2. BASIS OF ACCOUNTING

The financial statements of the Bank have been prepared in accordance with the Cambodian International Financial Reporting Standards ("CIFRSs").

The accounting policies and methods of computation have been applied consistently to all periods presented in these financial statements.

Details of the Bank's material accounting policies are included in Note 36.

The financial statements of the Bank were authorised for issue by the Board of Directors on 29 March 2024.

3. FUNCTIONAL AND PRESENTATION CURRENCY

These financial statements are presented in US\$, which is the Bank's functional currency. All amounts have been rounded to the nearest dollar or thousand Riels, except when otherwise indicated.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

4. PRESENTATION OF FINANCIAL STATEMENTS

Management presents the financial statements based on liquidity. Information about short-term and long-term of assets and liabilities are disclosed in the financial risk management section. Assets and liabilities over 12 months are considered non-current assets and non-current liabilities, respectively, in the notes to the financial statements.

5. USE OF JUDGMENTS AND ESTIMATES

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Bank's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

A. Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes.

- Note 36C(ii): classification of financial assets: assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are 'solely payment for principal and interest' ("SPPI") on the principal amount outstanding.
- Note 36C(vii): establishing the criteria for determining whether credit risk on the financial asset has increased significantly since initial recognition, determining methodology for incorporating forward-looking information into measurement of 'expected credit loss' ("ECL") and selection and approval of models used to measure ECL.

B. Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- Note 36C(vi): measurement of the fair value of financial instruments with significant unobservable inputs.
- Note 36C(vii): impairment of financial instruments: determining inputs into the ECL measurement model, including incorporation of forward-looking information.
- Note 36C(vii): impairment of financial instruments: key assumptions used in estimating recoverable cash flows.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

6. TRANSLATION OF UNITED STATES DOLLARS INTO KHMER RIEL

The financial statements are expressed in United States Dollar which is the Bank's functional currency. The translations of United States Dollars amount into Khmer Riel ("KHR") meets the presentation requirements pursuant to the Law on Accounting and Auditing and has been done in compliance with CIAS 21-The Effects of Changes in Foreign Exchange Rates.

Assets and liabilities are translated at the closing rate as at the reporting date. Share capital and other equity accounts are translated at the historical rate. The statements of profit or loss and other comprehensive income and cash flows are translated into KHR using the average rate for the year, which has been deemed to approximate the exchange rate at the date of transaction as exchange rates have not fluctuated significantly during the period. Exchange differences arising from the translation are recognised as "Currency translation difference" in the other comprehensive income.

The translations of USD amounts into KHR as presented in the financial statements are included solely to comply with the Law on Accounting and Auditing dated 11 April 2016 and have been made using the prescribed official exchange rate base on the following applicable exchange rate per US\$ as announced by the National Bank of Cambodia ("NBC"):

		Closing Rate	Average Rate*
31 December 2023	US\$1 =	KHR4,085	KHR4,110
31 December 2022	US\$1 =	KHR4,117	KHR4,087

*The average amounts were determined using the NBC's daily rates.

These translations should not be construed as representations that the US\$ amounts have been, could have been, or could in the future be, converted into KHR at this or any other rate of exchange.

7. CASH AND CASH EQUIVALENTS

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

9. STATUTORY DEPOSITS

	Note	31 December		31 December	
		2023	2022	2023	2022
		US\$	US\$	KHR'000 (Note 6)	KHR'000 (Note 6)
Statutory capital deposit	A	7,500,000	7,500,000	30,637,500	30,877,500
Reserve requirements on deposits from customers, banks and financial institutions	B	63,613,218	66,154,932	259,859,996	272,359,855
		71,113,218	73,654,932	290,497,496	303,237,355

A. Statutory capital deposit

Under the NBC's Prakas No. B7-01-136 dated 15 October 2001, the Bank is required to maintain a statutory deposit of 10% of its capital. This deposit is not available for use in the Bank's day-to-day operations and is refundable should the Bank voluntarily ceases its operations in the Kingdom of Cambodia. During the year, the statutory capital deposit earned interest at the rate of 1.26% per annum (2022: 0.37% per annum).

B. Reserve requirements on deposits from customers, banks and financial institutions and non-resident borrowings

The reserve requirement rate ("RRR") represents the minimum reserve which is calculated at 8% for KHR and 12.50% for other currencies of the total amount of deposits from customers, non-residential banks and financial institution deposits, and non-residential borrowings. Pursuant to the NBC's Prakas No. B7-018-282, the maintenance of reserve requirement both in KHR and in other currencies bear no interest effective from 20 August 2018.

On 18 March 2020, NBC issued a press release announcing the reduction of the RRR on KHR from 8% to 7%. For foreign currencies, the RRR is reduced from 12.50% to 7%, in order to mitigate the impact of the COVID -19 pandemic on Cambodia's economy. On 9 January 2023, NBC issued Prakas No. B7-023-005 announcing the increment of the RRR on foreign currencies to 9% starting from 1 January 2023 and to 12.5% starting from 1 January 2024 onwards. However, in the letter No. B7-023-2621 dated 23 November 2023 issued by NBC, the reserve requirement against deposits and borrowings in foreign currencies was changed to 7% until 31 December 2024.

	3,467,027	4,055,919	14,162,805	16,698,220

20. PROVISION FOR EMPLOYEE BENEFITS

This represents the provision of the backpay seniority indemnity payment, which is circulated at a maximum of six-month wages (depending on the length of service the employee has served) to the employee who has seniority before 2019 as required by Prakas No. 443 issued by the Ministry of Labor and Vocational Training on 21 September 2018, and subsequently amended by Instruction No. 042/19 dated 22 March 2019 on the postponed payment of backpay seniority indemnity. Following the instruction, the bank initiated the first backpay seniority indemnity payment in June 2022, with subsequent payments occurring in June and December of each year thereafter.

21. INCOME TAX**A. Deferred tax assets – net**

4 to 5 years	-	594	-	2,445
Over 5 years	-	-	-	-
	1,362,056	1,130,427	5,563,998	4,653,968

C. Tax contingencies

Taxes are subject to review and investigation by a number of authorities, who are enabled by law to impose severe fines, penalties and interest charges. The application of tax laws and regulations to many types of transactions are susceptible to varying interpretations.

These facts may create tax risks in Cambodia substantially more significant than in other countries. Management believes that it has adequately provided for tax liabilities based on its interpretation of tax legislation. However, the relevant authorities may have differing interpretations and the effects could be significant.

On 30 November 2021, the General Department of Taxation ("GDT") issued a Notice of Tax Reassessment ("NoTR") to the Bank to pay reassessed taxes of KHR19,327,498,202 (approximately US\$4,831,875) for the fiscal year 2019. The Bank has engaged a tax advisor to help on this matter and filed a protest letter to GDT on 20 December 2021. On 18 January 2024, the GDT has issued the amendment of NoTR with the total reassessed taxes of KHR915,604,017 (approximately USD224,964), and the Bank has settled the tax payment in January 2024.

On 17 April 2023, the GDT issued a notice of tax reassessment to the Bank to pay reassessed taxes of KHR510,307,434 (approximately US\$123,741) in relation to Desk Audit for the fiscal year 2023 and 2022. The Bank has filed the first protest letter to GDT on 9 May 2023 and on 6 July 2023 GDT issued an update on the initial reassessment to reduce the amount to KHR25,332,516 (approximately US\$6,134). On 28 July 2023, the bank has filed the second protest letter to GDT and on 3 October 2023 GDT issued a second reassessment to reduce the amount to KHR14,777,301 (approximately US\$3,585). On 27 October 2023, the bank has fully settled the payment to GDT.

The Bank received two notification letters to conduct a Comprehensive Tax Audit (CTA) from the GDT on the 26 April 2022 for the year 2020 and 2021; and another one on the 18 December 2023 for the year 2022. As at the date of this report, neither an initial nor final assessment has been issued to the Bank.

The Bank's management has performed self-assessment for the year 2020 to 2023, and made provisions of US\$ 300,059, US\$ 575,725, US\$305,475 and USD249,200 for 2020 to 2023 respectively.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

33. RELATED PARTIES**A. Identity of related parties**

For the purposes of these financial statements, parties are considered to be related to the Bank if the Bank has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Bank and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

The Bank has related party relationships with its parent, substantial shareholders, associates and key management personnel.

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Bank either directly or indirectly. The key management personnel include all the Directors of the Bank, and certain senior management members of the Bank.

Key management have banking relationships with the Bank entities which are entered into in the normal course of business and on substantially the same terms, including interest rates and security, as for comparable transactions with other persons of a similar standing or, where applicable, with other employees. These transactions did not involve more than the normal risk of repayment or present other unfavourable features.

34. FINANCIAL RISK MANAGEMENT

A. Introduction and overview

The Bank has exposure to the following risks from financial instruments:

- credit risk;
- market risk;
- liquidity risk; and
- operational risk

This note presents information about the Bank's exposure to each of the above risks, the Bank's objectives, policies and processes for measuring and managing risk, and the Bank's capital management.

Risk management functional and governance structure

The Bank's Board of Directors has overall responsibility for the establishment and oversight of the Bank's risk management framework. The Board of Directors has established the Bank Asset and Liability Management Committee ("ALCO"), which is responsible for the oversight and strategic management of Bank's balance sheet, activities including balance sheet structure, liquidity, funding, capital management, non-traded interest rate risk and non-traded foreign exchange risks.

The Bank's risk management policies are established to identify and analyse the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. The risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Bank's activities. The Bank, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Bank's Audit Committee is established by the Board of Directors to provide independent oversight of the Bank's internal and external audit functions, internal control system, financial reporting and to ensure checks and balances within the Bank. The purpose of the Committee is to assist the Board in its review of:

- the work of Bank's internal audit and oversight of external audit activity;
- Bank's financial reporting principles and policies, controls and procedures; and
- the integrity of Bank's financial statements and the independent audit thereof.

B. Credit risk

'Credit risk' is the risk of financial loss to the Bank, if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Bank's loans and advances to customers and placements with other banks, and other assets.

For risk management reporting purposes, the Bank considers and consolidates all elements of credit risk exposure – e.g. individual obligor default risk, and sector risk.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)**B. Credit risk (continued)**

Credit risk is the potential loss of revenue and principal losses arising mainly from loans and advances and loan commitments as a result of default by the borrowers or counterparties through its lending activities.

(i). Management of credit risk

The Board of Directors created the Risk Management Committee ("RMC") for oversight and presides over Credit, Operational & Compliance and Market Risk and will be appraised of key risk related issues affecting the businesses, including but not limited to the following.

- Endorsing credit and market risk appetite, risk metrics and tolerances for relevant metrics. Monitoring credit and markets risk metrics within the approved risk tolerances regularly in line with reporting frequency; Delegation of Credit Approval Discretions ("CAD") to individuals and approving lending facilities in excess of the delegated CADs; Reviewing Risk Models and their performance and stress testing results; Approving remediation/ action plans in relation to breaches of risk tolerances and reporting significant risk issues to the Board; Identifying and providing early warnings on potential threats/risks to the stability of the Bank's performance and instigating necessary actions to protect the Bank from these threats/risks in both short term and long term;
- Providing a robust risk framework covering all operational risks, governance and compliance issues, policies and processes within the Bank, so that it is able to support the Bank's strategy. Investigating and reviewing policy breaches of Credit, Operational and Compliance and Market Risk and approving remediation actions;
- Reviewing internal audits and regulator review issues, and monitoring the remediation actions to ensure prompt closure.
- Developing and maintaining the Bank's processes for measuring ECL. This includes processes for:
 - initial approval and validation and recalibration of the models used;
 - determining and monitoring significant increase in credit risk; and
 - incorporation of forward-looking information.
- Reviewing compliance of business units with agreed limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to Risk Management, which may require appropriate corrective action to be taken. These include reports containing estimates of ECL allowances.
- Providing advice, guidance and specialist skills to business units to promote best practice throughout the Bank in the management of credit risk.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)**B. Credit risk (continued)****(i). Management of credit risk (continued)**

- The authority to make credit decisions is delegated by the Board of Directors to Risk Management Committee ("RMC"). RMC shall perform the delegated power and shall have the right to further delegate or sub-delegate CADs to other executives and/or staff of the Bank to effectively decide on credit related matters. Individuals must be suitably skilled and accredited in order to be granted and retain a credit discretion. The credit approval authority of authorised individuals (CAD holder) is set in the delegation letters signed by the Chairwoman (or Chair) of the RMC or his/her delegates. CAD holders must be responsible in exercising the assigned CAD and only be allowed to exercise such CAD within the Bank's risk appetite. Credit discretions are reviewed on an annual basis and may be varied based on the CAD holder's performance.
- Regular audits of business units and Bank Credit processes are undertaken by Internal Audit.

(ii). Concentration of risk

- The Bank operates and provides loans and advances to individuals or enterprises within the Kingdom of Cambodia. The Bank manages limits and controls concentration of credit risk whenever they are identified.
- The following table presents the Bank's maximum exposure to credit risk of on-balance sheet and off-balance sheet financial instruments, without taking into account of any collateral held or other credit enhancements. For on-balance sheet assets, the exposure to credit risk equals their carrying amount. For contingent liabilities, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the instruments issued are called upon.

	1,000,980,828	990,860,843	4,089,006,683	4,079,374,090

(*) A "large exposure" is defined under the NBC's Prakas as the overall gross exposure of the aggregate balance of loans and advances with one single beneficiary, which exceeds 10% of the Bank's net worth. The exposure is the higher of the outstanding loans or commitments and the authorised loans or commitments.

(**) A "restructured loan" is a loan that original contractual terms have been modified to provide for concessions for the borrowers for reasons related to real temporary financial difficulties.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)

B. Credit risk (continued)

(iii). Collateral

Whilst the Bank's maximum exposure to credit risk is the carrying amount of the assets or, in the case of off-balance sheet instruments, the amount guaranteed, committed, accepted or endorsed, the likely exposure may be lower due to offsetting collateral, credit guarantees and other actions taken to mitigate the Bank's exposure.

The description of collateral for each class of financial asset is set out below.

Cash and cash equivalents, balances with NBC, placement with banks, and other assets

Collateral is generally not sought for these assets.

Loans and advances to customers, contingent liabilities and commitments

Certain loans and advances to customers, contingent liabilities and commitments are typically collateralised to a substantial extent. In particular, residential mortgage exposures are generally fully secured by residential properties.

The table below summarises the Bank's security coverage of its financial assets:

	Collateral/credit enhancement				Unsecured credit exposure	Total

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)

B. Credit risk (continued)

(iv). Credit quality of gross loans and advances to customers

On 28 December 2021, the NBC issued a new Circular, No. B7-021-2314 CL on Classification and Provisioning Requirement on Restructure Loans, which aims at phasing out the forbearance period for the existing restructured loans and phasing the classification and provisioning arrangements complying with the current regulation, Prakas No. B7-017-344 dated 01 December 2017 on Credit Risk Grading and Impairment Provisioning. In this regard, all restructured loans by 31 December 2021 shall be classified and provisioned based on the requirements under this circular. For loans that were still in the assessment period, they shall be kept at the same classification as before the restructured terms of contract.

Following the NBC's workshop on "the Circular on Classification and Provisioning Requirement for Restructured Loans" held on 18 January 2022, the NBC issued a communication on 4 February 2022 allowing banking and financial institutions ("BFIs") to defer the implementation of the new Circular until January 2022 onward though early adoption is encouraged.

Pursuant to the NBC guideline Prakas B7.017.344, it has defined each credit grading according to its credit quality as follows:

Normal

Outstanding facility is repaid on timely manner and is not in doubt for the future repayment. Repayment is steadily made according with the contractual terms and the facility does not exhibit any potential weakness in repayment capability, business, cash flow and financial position of the counterparty.

Special mention

A facility in this class is currently protected and may not be past due but it exhibits potential weaknesses that may adversely affect repayment of the counterparty at the future date, if not corrected in a timely manner, and close attention by the Institution.

Weaknesses include but are not limited to a declining trend in the business operations of the counterparty or in its financial position, and adverse economic and market conditions that all might affect its profitability and its future repayment capacity, or deteriorating conditions on the collateral. This class has clearly its own rational and should not be used as a compromise between Normal and Substandard.

Substandard

A facility ranked in this class exhibits noticeable weakness and is not adequately protected by the current business or financial position and repayment capacity of the counterparty. In essence, the primary source of repayment is not sufficient to service the debt, not taking into account the income from secondary sources such as the realization of the collateral.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)

B. Credit risk (continued)

(iv). Credit quality of gross loans and advances to customers (continued)

Substandard (continued)

Factors leading to a substandard classification include:

- Inability of the counterparty to meet the contractual repayments' terms,
- Unfavourable economic and market conditions that would adversely affect the business and profitability of the counterparty in the future,
- Weakened financial condition and/or inability of the counterparty to generate enough cash flow to service the payments,
- Difficulties experienced by the counterparty in repaying other facilities granted by the Institution or by other institutions when the information is available, and
- Breach of financial covenants by the counterparty.

Doubtful

A facility classified in this category exhibits more severe weaknesses than one classified Substandard such that its full collection on the basis of existing facts, conditions or collateral value is highly questionable or improbable. The prospect of loss is high, even if the exact amount remains undetermined for now.

Loss

A facility is classified loss when it is not collectable, and little or nothing can be done to recover the outstanding amount from the counterparty.

Recognition of ECL

The Bank applies a three-stage approach based on the change in credit quality since initial recognition:

3-Stage approach

	Stage 1 Performing	Stage 2 Underperforming	Stage 3 Nonperforming
Recognition of expected credit losses	12 months expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses
Criterion	No significant increase in credit risk	Credit risk increased significantly	Credit impaired assets
Basic of calculation of profit revenue	On gross carrying amount	On gross carrying amount	On net carrying amount

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)**B. Credit risk (continued)****(iv). Credit quality of gross loans and advances to customers (continued)****Recognition of ECL (continued)**

The Bank measures ECL by using the general approach as detailed in the ECL documentation. The general approach consists of segregating the customers into three different stages according to the staging criteria by assessing the credit risk. 12-month ECL will be computed for stage 1, while lifetime ECL will be computed for stage 2 and stage 3. At each reporting date, the Bank will assess credit risk of each account as compared to the risk level at origination date.

Long-term facilities (more than one year)

Stage	Credit Risk Status	Classification / CCR	DPD	Default Indicator
1	No significant increase in credit risk	Normal / 6 or better	0 ≤ DPD < 30	Performing
2	Credit risk increased significantly	Special Mention / 7, 8=, 8+	30 ≤ DPD < 90	Underperforming
3	Credit impaired assets	Substandard / 8-	90 ≤ DPD < 180	Nonperforming
		Doubtful / 9	180 ≤ DPD < 360	
		Loss / 10	DPD ≥ 360	

Short-term facilities (one year or less)

Stage	Credit Risk Status	Classification / CCR	DPD	Default Indicator
1	No significant increase in credit risk	Normal / 6 or better	0 ≤ DPD ≤ 14	Performing
2	Credit risk increased significantly	Special Mention / 7, 8=, 8+	15 ≤ DPD ≤ 30	Underperforming
3	Credit impaired assets	Substandard / 8-	31 ≤ DPD ≤ 60	Nonperforming
		Doubtful / 9	61 ≤ DPD ≤ 90	
		Loss / 10	DPD ≥ 91	

The Bank uses the days past due ("DPD") information, internal Customer Credit Rating (CCR) and NBC's classification to determine staging transferred criteria. Also, the Bank incorporates a forward-looking approach in applying MEVs (Macro-Economic Variables) to ECL calculation to reflect economic adjustments.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)

B. Credit risk (continued)

(iv). Credit quality of gross loans and advances to customers (continued)

Significant increase in credit risk

In evaluating whether there has been a significant increase in credit risk associated with a financial instrument since its initial recognition, the Bank conducts a thorough evaluation between the likelihood of default on the financial instrument at the reporting date, considering its remaining maturity, and the anticipated default risk done at the time of initial recognition. This assessment involves both quantitative and qualitative factors that are deemed reasonable, supportable, and its availability without undue cost or effort. It depends on the Bank's historical data and credit assessments, which include forward-looking information.

The Bank engages in loan renegotiations with customers facing short-term financial difficulties, with the primary goal of optimizing collections while mitigating default risks. Loan forbearance is extended to customers who, despite making reasonable payment efforts under the original terms, face a high risk of default or have already defaulted, yet are expected to adhere to revised terms. The Bank supports these customers by offering various loan restructuring options, including grace periods, full moratoriums, and revised facility terms such as maturity extensions, as well as deferred interest or principal repayments, all in strict compliance with NBC regulations.

From the perspective of the Bank's Management, the first restructuring is an initial indicator of a significant increase in credit risk, and it may constitute evidence of credit impairment in the future if the modification terms and conditions have not improved or restored the Bank's ability to collect the repayment. Those exposures shall be measured at an amount equal to Stage 2.

Even though a portion of the Bank's loan portfolio has been restructured, most of these restructured customers still indicate positive business prospects for the Bank and are still able to service their regular interest payments. Those customers demonstrate consistently good payment behaviour over a certain period of time before the exposure is no longer considered to be in Stage 2, and such an allowance reverts to Stage 1.

Regarding the treatment of staging transfer criteria for financial instruments that have been restructured more than once or have shown significant deterioration as high-risk accounts, the Bank determined that such accounts shall remain in Stage 3.

Incorporation of forward-looking information

The Bank incorporates forward-looking information into both the assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and the measurement of ECL.

External information considered includes economic data and forecasts published by governmental bodies and monetary authorities in the countries where the Bank operates, supranational organisations such as the International Monetary Fund, and selected private-sector and academic forecasters.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)

B. Credit risk (continued)

(iv). Credit quality of gross loans and advances to customers (continued)

Incorporation of forward-looking information (continued)

The Bank used the macroeconomic historical data in order to forecast the probability of default. The known quarterly Observed Default Rates ("ODRs") are regressed against the quarterly macro-economic variables ("MEV") values. The Bank has used a time weighted average methodology in order to forecast future MEVs. A forward-looking scalar is computed as the ratio of the ODR based on the most recently known MEV and the forecasted MEV.

The MEVs are shocked in order to generate base, best- and worst-case scenarios. This has been done by computing the standard deviation of the known historical values of the MEV and adjusting the base value by +/- 2 standard deviation to generate best- and worst-case scenarios.

The Bank has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments in accordance with each country and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

(v). Amounts arising from ECL

Impairment loss allowance

The following tables show reconciliation from the opening to the closing balance of the impairment loss allowance by class of financial instrument.

C. Market risk

Market risk is the risk that changes in market prices – e.g., interest rates, foreign exchange rates and equity prices – will affect the Bank's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i). Interest rate risk

Interest rate risk refers to the volatility in net interest income as a result of changes in the levels of interest rate and shifts in the composition of the assets and liabilities. Interest rate risk is managed through close monitoring of returns on investment, market pricing and cost of funds. The potential reduction in net interest income from an unfavourable interest rate movement is regularly monitored against the risk tolerance limits set.

34. FINANCIAL RISK MANAGEMENT (CONTINUED)

D. Liquidity risk

'Liquidity risk' is the risk that the Bank will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises from mismatches in the timing and amounts of cash flows, which is inherent to the Bank's operations and investments.

Management of liquidity risk

The Bank manages its liquidity through its Asset Liability Management Committee which is responsible for establishing the liquidity policy as well as monitoring liquidity on an ongoing basis. A Minimum Liquid Asset requirement has been established to ensure that the ratio of liquid assets to qualifying liabilities is subject to a minimum threshold at all times.

The table below summarises the Bank's liabilities based on remaining contractual maturities. The expected cash flows of these assets and liabilities could vary significantly from what is shown in the table. For example, deposits from customers are not all expected to be withdrawn immediately.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

34. FINANCIAL RISK MANAGEMENT (CONTINUED)**E. Operational risk**

The operational risk is the risk of losses arising from inadequate or failed internal processes, people or systems or from external factors. This risk is managed through established operational risk management processes, proper monitoring and reporting of the business activities by control and oversight provided by the senior Management. This includes legal, compliance, accounting and fraud risk.

The operational risk management entails the establishment of clear organizational structures, roles and control policies. Various internal control policies and measures have been implemented. These include the establishment of signing authorities, defining system parameters controls, streaming procedures and documentation ensuring compliance with regulatory and legal requirements. These are reviewed continually to address the operational risks of its banking business.

F. Capital management**(i). Regulatory capital**

The Bank's objectives when managing capital, which is a broader concept than the "equity" on the face of the statement of financial position, are:

- To comply with the capital requirements set by the NBC;
- To safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of the business.

The Bank's policy is to maintain a strong capital base so as to maintain market confidence and to sustain further development of the business. The impact of the level of capital on shareholders' return is also recognised and the Bank recognised the need to maintain a balance between the higher returns that might be possible with greater gearing and advantages and security afforded by a sound capital position.

The above regulated capital is calculated in accordance with the guidance issued by the NBC which may be different in some material aspects compared to generally accepted principles applied by financial institutions in other jurisdiction. The above regulated capital information is therefore not intended for users who are not informed about the guidance issued by the NBC.

(ii). Capital allocation

The allocation of capital between specific operations and activities is, to a large extent, driven by optimisation of the return achieved on the capital allocated. The amount of capital allocated to each operation or activity is based primarily upon the regulatory capital.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

35. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

Financial instruments comprise financial assets, financial liabilities and off-balance sheet instruments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The information presented herein represents the estimates of fair values as at the financial position date.

Quoted and observable market prices, where available, are used as the measure of fair values of the financial instruments. Where such quoted and observable market prices are not available, fair values are estimated based on a range of methodologies and assumptions regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors.

Fair value information for non-financial assets and liabilities are excluded as they do not fall within the scope of CIFRS 7: Financial Instruments Disclosures which requires the fair value information to be disclosed.

The fair value of the Bank's financial instruments such as cash and short-term funds, placements with banks and other financial institutions, deposits from customers and banks, other assets, other liabilities and short-term borrowings are not materially sensitive to shifts in market profit rate because of the limited term to maturity of these instruments. As such, the carrying value of these financial assets and liabilities at financial position date approximate their fair values.

The fair values are based on the following methodologies and assumptions:

Balances with other banks

Balance with other banks include non-interest bearing current accounts and savings deposits. The fair value of placements with other financial institutions approximates the carrying amount.

Financing, loans and advances and others

The fair value is estimated by discounting the estimated future cash flows using the prevailing market rates of financing with similar credit risks and maturities.

Deposits from banks, other financial institutions and customers

The fair values of deposits payable on demand (current and savings accounts), or deposits with remaining maturity of less than one year are estimated to approximate their carrying amounts. The fair values of deposits with remaining maturity of more than one year are estimated based on discounted cash flows using prevailing market rates for similar deposits from banks and customers.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

35. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES (CONTINUED)*Fair value hierarchy*

CIFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources and unobservable inputs reflect the Bank's market assumptions. The fair value hierarchy is as follows:

- Level 1 – Quoted price (unadjusted) in active markets for the identical assets or liabilities. This level includes listed equity securities and debt instruments.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 – Inputs for asset or liability that are not based on observable market data (unobservable inputs). This level includes equity instruments and debt instruments with significant unobservable components.

The Bank's financial assets and liability are not measured at fair value. As verifiable market prices are not available, market prices are not available for a significant proportion of the Bank's financial assets and liabilities, the fair values, therefore, have been based on management assumptions according to the profile of the asset and liability base. In the opinion of the management, the carrying amounts of the financial assets and liabilities included in the statement of financial position are a reasonable estimation of their fair values.

36. MATERIAL ACCOUNTING POLICY INFORMATION

The Bank has consistently applied the following material accounting policies to all periods presented in these financial statements, unless otherwise indicated.

A. Basis of measurement

The financial statements have been prepared on a historical cost basis.

B. Foreign currency

Transactions in foreign currencies are translated into the functional currency at the spot exchange rates at the date of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the spot exchange rate at the reporting date. The foreign currency gain or loss on monetary items is the difference between the amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in the foreign currency translated at the spot exchange rate at the end of the year.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the spot exchange rate at the date on which the fair value is determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the spot exchange rate at the date of the transaction.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities***(i). Recognition and initial measurement*

The Bank initially recognises loans and advances, borrowings and subordinated liabilities on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the Bank becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through profit and loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue.

*(ii). Classification***Financial assets**

On initial recognition, a financial asset is classified as measured at: 'amortised cost', 'fair value through other comprehensive income' ("FVOCI") or 'fair value through profit or loss' ("FVTPL").

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, the Bank may irrevocably elect to present subsequent changes in fair value in 'other comprehensive income' ("OCI"). This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL

In addition, on initial recognition, the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)***(ii). Classification (continued)***Financial assets (continued)***Business model assessment*

The Bank makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Bank's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and its strategy for how those risks are managed;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment of whether contractual cash flows are solely payments of principal and interest ("SPPI")

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are SPPI, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)***(ii). Classification (continued)***Financial assets (continued)***Assessment of whether contractual cash flows are solely payments of principal and interest ("SPPI") (continued)*

In making the assessment, the Bank considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Bank's claim to cash flows from specified assets (e.g. non-recourse loans); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

Non-recourse loans

In some cases, loans made by the Bank that are secured by collateral of the borrower limit the Bank's claim to cash flows of the underlying collateral (non-recourse loans). The Bank applies judgment in assessing whether the non-recourse loans meet the SPPI criterion. The Bank typically considers the following information when making this judgement:

- whether the contractual arrangement specifically defines the amounts and dates of the cash payments of the loan;
- the fair value of the collateral relative to the amount of the secured financial asset;
- the ability and willingness of the borrower to make contractual payments, notwithstanding a decline in the value of collateral;

The Bank typically considers the following when making this judgement:

- whether the borrower is an individual or a substantive operating entity or is a special-purpose entity;
- the Bank's risk of loss on the asset relative to a full-recourse loan;
- the extent to which the collateral represents all or a substantial portion of the borrower's assets; and
- whether the Bank will benefit from any upside from the underlying assets.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Bank changes its business model for managing financial assets.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)***(ii). Classification (continued)***Financial liabilities**

Financial liabilities are generally classified as other financial liabilities and measured at amortised cost unless they meet the criteria for 'fair value through profit or loss'.

*(iii). Derecognition***Financial assets**

The Bank derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Financial liabilities

The Bank derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

*(iv). Modifications of financial assets and financial liabilities***Financial assets**

If the terms of a financial asset are modified, then the Bank evaluates whether the cash flows of the modified asset are substantially different.

If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised (see (iii)) and a new financial asset is recognised at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in profit and loss as part of the gain or loss on derecognition.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)***(iv). Modifications of financial assets and financial liabilities (continued)***Financial assets (continued)**

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Bank plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place (see below for write-off policy). This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the Bank first recalculates the gross carrying amount of the financial asset using the original effective interest rate of the asset and recognises the resulting adjustment as a modification gain or loss in profit and loss. For floating-rate financial assets, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs or fees incurred and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income calculated using the effective interest rate method.

Financial liabilities

The Bank derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability derecognised and consideration paid is recognised in profit or loss. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective interest rate and the resulting gain or loss is recognised in profit or loss. For floating-rate financial liabilities, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective interest rate on the instrument.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(iv). Modifications of financial assets and financial liabilities (continued)****Interest rate benchmark reform**

If the basis for determining the contractual cash flows of a financial asset or financial liability measured at amortised cost changes as a result of interest rate benchmark reform, then the Bank updates the effective interest rate of the financial asset or financial liability to reflect the change that is required by the reform. A change in the basis for determining the contractual cash flows is required by interest rate benchmark reform if the following conditions are met:

- the change is necessary as a direct consequence of the reform; and
- the new basis for determining the contractual cash flows is economically equivalent to the previous basis – i.e. the basis immediately before the change.

If changes are made to a financial asset or financial liability in addition to changes to the basis for determining the contractual cash flows required by interest rate benchmark reform, then the Bank first updates the effective interest rate of the financial asset or financial liability to reflect the change that is required by interest rate benchmark reform. After that, the Bank applies the policies on accounting for modifications set out above to the additional changes.

(v). Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Bank has a legal right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(vi). Fair value measurement

Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

When one is available, the Bank measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Bank uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(vi). Fair value measurement (continued)**

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Bank determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Bank measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Bank on the basis of the net exposure to either market or credit risk are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) for the particular risk exposure. Portfolio-level adjustments – e.g. bid-ask adjustment or credit risk adjustments that reflect the measurement on the basis of the net exposure – are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The fair value of a financial liability with a demand feature (e.g. a demand deposit) is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

The Bank recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

(vii). Impairment

The Bank recognises loss allowances for ECL on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments;
- financial guarantee contract issued; and,
- loan commitments issued.

No impairment loss is recognised on equity investments.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(vii). Impairment (continued)**

The Bank measures loss allowances at an amount equal to lifetime ECL, except for the following, for which they are measured as 12-month ECL:

- debt investment securities that are determined to have low credit risk at the reporting date; and
- other financial instruments (other than lease receivables) on which credit risk has not increased significantly since their initial recognition.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Financial instruments for which a 12-month ECL is recognised are referred to as 'Stage 1 financial instruments'.

Life-time ECL are the ECL that result from all possible default events over the expected life of the financial instrument. Financial instruments for which a lifetime ECL is recognised but which are not credit-impaired are referred to as 'Stage 2 financial instruments'.

At each reporting date, the Bank assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECL.

In evaluating whether there has been a significant increase in credit risk associated with a financial instrument since its initial recognition, the Bank conducts a thorough evaluation between the likelihood of default on the financial instrument at the reporting date, considering its remaining maturity, and the anticipated default risk done at the time of initial recognition. This assessment involves both quantitative and qualitative factors that are deemed reasonable, supportable, and its availability without undue cost or effort. It depends on the Bank's historical data and credit assessments, which include forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECL.

The maximum period considered when estimating ECL is the maximum contractual period over which the Bank is exposed to credit risk.

Determining whether credit risk has increased significantly

The Bank assesses whether credit risk has increased significantly since initial recognition at each reporting date. Determining whether an increase in credit risk is significant depends on the characteristics of the financial instrument and the borrower, and the geographical region.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(vii). Impairment (continued)****Determining whether credit risk has increased significantly (continued)**

The Bank considers that a significant increase in credit risk occurs no later than when an asset is more than 14 days (short-term facilities) and 29 days (long-term facilities) past due. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower.

If there is evidence that there is no longer a significant increase in credit risk relative to initial recognition, then the loss allowance on an instrument returns to being measured as 12-month ECL.

Definition of default

The Bank considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Bank in full, without recourse by the Bank to actions such as realising security (if any is held); or
- the borrower is more than 30 days past due for short-term facilities or more than 89 days past due for long-term facilities on any material obligation to the Bank; or
- it is becoming probable that the borrower will restructure the asset as a result of bankruptcy due to the borrower's inability to pay its credit obligations.

Measurement of ECL

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Bank expects to receive);
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows; and
- undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the Bank if the commitment is drawn down and the cash flows that the Bank expects to receive.
- financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Bank expects to recover.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(vii). Impairment (continued)****Measurement of ECL (continued)**

When discounting future cash flows, the following discount rates are used:

- financial assets other than purchased or originated credit-impaired ("POCI") financial assets and lease receivables: the original effective interest rate or an approximation thereof;
- undrawn loan commitments: the effective interest rate, or an approximation thereof, that will be applied to the financial asset resulting from the loan commitment; and
- financial guarantee contracts issued: the rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows.

Inputs, assumptions and techniques used for estimating impairment

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of default ("PD");
- Loss given default ("LGD"); and
- Exposure at default ("EAD").

ECL for exposures in Stage 1 is calculated by multiplying the 12-month PD by LGD and EAD. Lifetime ECL is calculated by multiplying the lifetime PD by LGD and EAD.

LGD is the magnitude of the likely loss if there is a default. The Bank estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the structure, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset.

EAD represents the expected exposure in the event of a default. The Bank derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract and arising from amortisation. The EAD of a financial asset is its gross carrying amount at the time of default. For lending commitments, the EAD is potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts. For some financial assets, EAD is determined by modelling the range of possible exposure outcomes at various points in time using scenario and statistical techniques.

As described above, and subject to using a maximum of a 12-month PD for Stage 1 financial assets, the Bank measures ECL considering the risk of default over the maximum contractual period (including any borrower's extension options) over which it is exposed to credit risk, even if, for credit risk management purposes, the Bank considers a longer period. The maximum contractual period extends to the date at which the Bank has the right to require repayment of an advance or terminate a loan commitment or guarantee.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(vii). Impairment (continued)****Restructured financial assets**

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL is measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-impaired financial assets

At each reporting date, the Bank assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI are credit-impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Bank on terms that the Bank would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a loan that is overdue for 30 days for short-term facilities or 89 days for long-term facilities is considered credit-impaired even when the regulatory definition of default is different.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position for financial assets measured at amortised cost as a deduction from the gross carrying amount of the assets.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**C. Financial assets and financial liabilities (continued)****(vii). Impairment (continued)****Write-off**

Loans and advances are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Bank determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in 'Impairment losses on financial instruments' in the statement of profit or loss and OCI.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Bank's procedures for recovery of amounts due.

D. Cash and cash equivalents

Cash and cash equivalents consist of cash and bank balances, demand deposits and short-term highly liquid investments with original maturities of three months or less when purchased, and that are readily convertible to known amounts of cash and subject to an insignificant risk of changes in value.

Cash equivalents with other banks are receivable on demand or on short notice and are classified as amortised cost in the statement of financial position. The cash and cash equivalents are held with bank and financial institution counterparties rated based on Standard & Poor's, MOODY and Bloomberg credit ratings.

E. Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of the ordinary share are recognised as a deduction from equity, net of any tax effects. Other shares are classified as equity and/or liability according to the economic substance of the particular instrument. Distributions to holders of a financial instrument classified as an equity instrument are charged directly to equity.

F. General reserves and regulatory reserves

The general reserves are set up for any overall financial risk. The Board of Directors exercises its discretion for the use and maintenance of the general reserves. The transfer from retained earnings to general reserves is subject to the approval of the Board of Directors of the Bank.

Regulatory reserves are set up for the variance of provision between loan impairment in accordance with CIFRSs and regulatory provision in accordance with National Bank of Cambodia's Prakas No. B7-017-344 dated 1 December 2017 and Circular No. B7-018-001 Sor Ror Chor Nor dated 16 February 2018 on credit risk classification and provision on impairment for banks and financial institutions. In accordance with Article 73, the entity shall compare the provision calculated in accordance with Article 49 to 71 and the provision calculated in accordance with Article 72, and record:

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**F. General reserves and regulatory reserves (continued)**

- (i) In case that the regulatory provision calculated in accordance with Article 72 is lower than the provision calculated in accordance with Articles 49 to 71, the entity records the provision calculated in accordance with CIFRSs; and,
- (ii) In case that the regulatory provision calculated in accordance with Article 72 is higher than provision calculated in accordance with Articles 49 to 71, the entity records the provision calculated in accordance with CIFRSs and transfers the difference from retained earnings or accumulated loss account into regulatory reserve in shareholders' equity of the statement of the financial position.

The regulatory reserves are not an item to be included in the calculation of the Bank's net worth.

G. Placements with other banks

Placements with other banks are carried at amortised cost using the effective interest rate method in the statement of financial position.

H. Statutory deposits

Statutory deposits included in balances with the NBC are maintained in compliance with the Cambodian Law on Banking and Financial Institutions and are determined by the defined percentage of the minimum share capital and the customers' deposits as required by the NBC.

I. Loans and advances

Loans and advances captions in the statement of financial position include loans and advances measured at amortised cost; they are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest rate method.

J. Other assets

Other assets are carried at amortised cost using the effective interest rate method in the statement of financial position.

K. Property and equipment**(i). Recognition and measurement**

Items of property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. Cost also may include transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property and equipment.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

K. Property and equipment (continued)

(i). Recognition and measurement (continued)

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii). Subsequent costs

The gain or loss on disposal of an item of property and equipment is determined by comparing the proceeds from disposal with the carrying amount of property and equipment and is recognised net within "other income" and "other expenses" respectively in profit or loss.

The cost of replacing a component of an item of property and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Bank, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of property and equipment are recognised in profit or loss as incurred.

(iii). Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line over the estimated useful lives of each component of an item of property and equipment. Work in progress is not depreciated until such time as the items are completed and put into operational use.

Depreciation is recognised from the date that the property and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current period are as follows:

	Years
Computers	3 – 5
Furniture and equipment	3 – 8
Motor vehicles	5
Leasehold improvements*	5 – 8

(*) Leasehold improvements are depreciated over the improvements' useful life of 5 to 8 years or the term of the relevant lease, whichever is shorter.

Depreciation methods, useful lives and residual values are reassessed at end of the reporting period and adjusted if appropriate.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

L. Intangible assets

Intangible assets comprise of software including costs incurred in acquiring and building software, which is not integral to the operation of hardware, and is carried at cost less accumulated amortisation and accumulated impairment losses, if any. Software costs are amortised on a straight-line basis over the expected useful lives from 5 to 7 years.

Costs incurred in planning or evaluating software proposals, or in maintaining systems after implementation, are not capitalised.

M. Leases

At inception of a contract, the Bank assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Bank assesses whether:

- the contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right throughout the period of use, then the asset is not identified;
- the Bank has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Bank has the right to direct the use of the asset. The Bank has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In cases where all the decisions about how and for what purpose the asset is used are predetermined, the Bank has the right to direct the use of the asset if either:
 - the Bank has the right to operate the asset; or
 - the Bank designed the asset in a way that predetermines how and for what purpose it will be used.

This policy is applied to contracts entered into, or changed, on or after 1 January 2018.

At inception or on reassessment of a contract that contains a lease and non-lease component, the Bank allocates the consideration in the contract to each lease component and aggregate of non-lease components on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Bank has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**M. Leases (continued)****Leases in which the Bank is a lessee**

An arrangement conveyed the right to use the asset if one of the following was met:

- the purchaser had the ability or right to operate the asset while obtaining or controlling more than an insignificant amount of the output;
- the purchaser had the ability or right to control physical access to the asset while obtaining or controlling more than an insignificant amount of the output; or
- facts and circumstances indicated that it was remote that other parties would take more than an insignificant amount of the output, and the price per unit was neither fixed per unit of output nor equal to the current market price per unit of output.

The Bank recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The estimated useful lives for the current period are as follows:

- Building and office branches 3 – 15 years

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, to the lessee's incremental borrowing rate. Generally, the Bank uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**M. Leases (continued)****Leases in which the Bank is a lessee (continued)**

- the exercise price under a purchase option that the Bank is reasonably certain to exercise, lease payments in an optional renewal period if the Bank is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Bank is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest rate method. It is remeasured when there is a change in the lease term, a change in the assessment of the option to purchase the underlying asset, a change in future lease payments arising from a change in an index or rate, or if there is a change in the Bank's estimate of the amount expected to be payable under a residual value guarantee.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Bank has elected not to recognise right-of-use assets and lease liabilities for short-term leases of machineries that have a lease term of 12 months or less and leases of low-value assets, including ATM Space. The Bank recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

N. Employee benefits**(i). Short-term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Bank has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii). Employee saving plan

An employee saving plan is an employment benefit plan under which an entity pays fixed contributions into a separate bank account. Obligations for contributions to saving plan are recognised as an expense in profit or loss in the periods during which services are rendered by employees.

The fund will be fully paid to the employee upon every 3 year of employment with the Bank.

(iii). Other long-term employee benefits

The Bank's net obligation in respect of long-term employee benefits is the amount of the benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit and loss in the period in which they arise.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**N. Employee benefits (continued)****(iv). Social Security Pension Fund**

To comply with Prakas from Ministry of Labor and Vocational Training, the Bank started to implement the Social Security Pension Fund from 1st October 2022 onwards. Payment to pension fund is an obligation of the Bank and employees. For the first five years, the contribution to the fund is 4% of each employee's salary capped at KHR 1,200,000 (equivalent to US\$291), of which 2% is from employee and the other 2% is from the Bank. The monthly contributions paid by the Bank is being recorded as monthly expense.

O. Provisions

Provisions are recognised in the statement of financial position when the Bank has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

P. Interest**Effective interest rate (EIR)**

Interest income and expense are recognised in profit and loss using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

When calculating the EIR for financial instruments other than purchased or originated credit-impaired assets, the Bank estimates future cash flows considering all contractual terms of the financial instrument, but not ECL. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including ECL.

The calculation of the EIR includes transaction costs and fees paid or received. A contractual interest rate is used in replacement of the EIR when management assesses that transaction costs and fees are not an integral part of the EIR and that the impact is not material to the financial statements. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest rate method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**P. Interest (continued)****Calculation of interest income and expense**

The EIR of a financial asset or financial liability is calculated on initial recognition of a financial asset or a financial liability. In calculating interest income and expense, the EIR is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. The EIR is revised as a result of periodic re-estimation of cash flows of floating rate instruments to reflect movements in market rates of interest. The EIR is also revised for fair value hedge adjustments at the date amortisation of the hedge adjustment begins.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the EIR to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted EIR to the amortised cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

Presentation

Interest income calculated using the effective interest rate method is presented in the statement of profit or loss and OCI includes interest on financial assets measured at amortised cost.

Interest expense presented in the statement of profit or loss and OCI includes interest on financial liabilities measured at amortised cost.

Q. Fee and commission

Fee and commission income and expense that are integral to the effective interest rate of a financial asset or financial liability are included in the effective interest rate.

Other fee and commission income are recognised as the related services are performed.

A contract with a customer that results in a recognised financial instrument in the Bank's financial statements may be partially in the scope of CIFRS 9 and partially in the scope of CIFRS 15. If this is the case, then the Bank first applies CIFRS 9 to separate and measure the part of the contract that is in the scope of CIFRS 9 and then applies CIFRS 15 to the residual.

R. Impairment of non-financial assets

The carrying amounts of the Bank's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**R. Impairment of non-financial assets (continued)**

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

S. Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit and loss except items recognised directly in equity or in other comprehensive income.

The Bank has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore has accounted for them under IAS 37 Provisions, Contingent Liabilities and Contingent Assets and has recognised the related expenses in 'Other expenses'.

(i). Current tax

Current tax comprises the expected tax payable or receivable on the taxable income for the period using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous period.

(ii). Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

A deferred tax asset is recognised for unused tax losses and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

NOTES TO THE FINANCIAL STATEMENTS**(CONTINUED)**

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

36. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**S. Income tax (continued)****(ii). Deferred tax (continued)**

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Bank expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

T. Contingent liabilities

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is not recognised in the statements of financial position and is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

U. Contingent assets

Where it is not possible that there is an inflow of economic benefits, or the amount cannot be estimated reliably, the asset is not recognised in the statement of financial position and is disclosed as a contingent asset, unless the probability of inflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent assets unless the probability of inflow of economic benefits is remote.

37. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS**A. New standard and amendments adopted as at 1 January 2023**

The Bank adopted the following accounting standards and interpretations as at 31 December 2023 which are mandatorily effective beginning on or after 1 January 2023:

- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to CIAS 12)
- Definition of Accounting Estimates – Amendments to CIAS 8
- Disclosure of Accounting Policies - Amendments to CIAS 1 and CIFRS Practice Statement 2

These new and revised accounting standards and interpretations that have been published by the IASB and adapted by the Accounting and Auditing Regulator ("ACAR") were assessed to have no material impact on the Bank's financial statements. Management understands that certain accounting policies are not required to be disclosed under the amended CIAS 1. However, Management also believes that all accounting policies disclosed in Note 36 are important for a better understanding of the users of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2023

37. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS (CONTINUED)

B. Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Bank

The standards and interpretations that are issued, but not yet effective, are disclosed below. The Bank intends to adopt these standards, if applicable, when they become effective.

- Classification of Liabilities as Current or Non-current (Amendments to CIAS 1)
- Non-current Liabilities with Covenants (Amendments to CIAS 1)
- Lack of Exchangeability (Amendments to CIAS 21, The Effects of Changes in Foreign Exchange Rates)
- Lease liability in a sale and leaseback (Amendments to CIFRS 16)

These amendments are not expected to have a significant impact on the financial statements in the period of initial application.

38. EVENTS SINCE THE REPORTING PERIOD

At the date of this report, there have been no significant events occurring after the reporting date which would require adjustments or disclosures to be made in the financial statements.
